## INDEPENDENT AUDITOR'S REPORT

---

To the Members of Southwest New Brunswick Service Commission

### *Opinion*

We have audited the financial statements of Southwest New Brunswick Service Commission (the Organization), which comprise the consolidated statement of financial position as at December 31, 2020, and the consolidated statements of operations, changes in net assets, Remeasurement gains and losses and cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Organization as at December 31, 2020, and the results of its operations and its cash flows for the year then ended in accordance with Canadian public sector accounting standards.

### *Basis for Opinion*

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Organization in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with those requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### *Responsibilities of Management and Those Charged with Governance for the Financial Statements*

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Canadian public sector accounting standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Organization's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless management either intends to liquidate the Organization or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Organization's financial reporting process.

### *Auditor's Responsibilities for the Audit of the Financial Statements*

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

(continues)

Independent Auditor's Report to the Members of Southwest New Brunswick Service Commission *(continued)*

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Organization's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Organization to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Fredericton, New Brunswick

---

**Southwest New Brunswick Service Commission**  
**Notes to the Consolidated Financial Statements**  
**December 31, 2020**

---

**1. Purpose of the Organization**

The Southwest New Brunswick Service Commission was established under the Regional Service Delivery Act and New Brunswick Regulation 2012-91 including limits of its regional boundaries .

Section 38 of the Regional Service Delivery Act came into force on January 1, 2013 which dissolved the former Southwest Solid Waste Commission and by Ministerial Order under section 41 transferred all assets, liabilities, rights, obligations, powers and responsibilities of the former regional solid waste commission to the regional service commission.

Section 45 of the Regional Service Delivery Act came into force on January 1, 2013 which dissolved the former District Planning Commissions established under the Community Planning Act and by Ministerial Order under section 48 transferred all assets, liabilities, rights, obligations, powers and responsibilities of the former rural district planning commission to the regional service commission.

The business and affairs of the Commission is directed and controlled by a board of directors in accordance with the Regional Service Delivery Act. The Board is comprised of (a) the mayors of each municipality or rural community and (b) where a member of the Commission is a local service district; at large representative chosen by and in accordance with New Brunswick Regulation 2012-109.

The Commission's mandate is as follows:

- (a) To provide solid waste disposal services to municipalities and local service districts.
- (b) To develop regional planning strategies that foster sustainable development practices, encourage a coordinated development between communities that influence and guide the placement of important infrastructure while serving as a tool for better protection, management and harmonization of urban and rural landscapes and resources.
- (c) To provide land use planning services to all local service districts and any municipality that wants to receive the service.
- (d) The Commission will be a source for communities to plan, coordinate and pool resources on a regional basis to enable a more effective response to emergencies.

**2. Summary of significant accounting policies**

The consolidated financial statements of the Commission are the representations of management prepared in accordance with Canadian generally accepted accounting principles for local governments, as recommended by the Public Sector Accounting Board (PSAB) of the Chartered Professional Accountants of Canada.

The focus of Public Sector Accounting (PSA) financial statements is on the financial position of the Commission and the changes thereto. The consolidated Statement of Financial Position includes all of the assets and liabilities of the Commission.

No other entities have been included in these consolidated financial statements.

Significant aspects of the accounting policies adopted by the Commission are as follows:

**Reporting entity**

The consolidated financial statements reflect the assets, liabilities, revenues, expenditures and changes in net debt and cash flows of the reporting entity. The reporting entity is comprised of all organizations and enterprises accountable for the administration of their affairs and resources to the Commission and which are owned or controlled by the Commission.

Interdepartmental and organizational transactions and balances are eliminated.

---

**Southwest New Brunswick Service Commission**  
**Notes to the Consolidated Financial Statements**  
**December 31, 2020**

---

**2. Summary of significant accounting policies (continued)**

**Budget**

The budget figures contained in these financial statements were approved by the Commission on December 4, 2019.

**Revenue recognition**

- (a) Solid waste tipping fees are recorded when waste is delivered to the landfill facility and collection is reasonably assured.
- (b) Sales of recyclable materials are recorded when shipped from the recycling facility and collection is reasonably assured.
- (c) Cooperative and regional planning service member charges are recorded when services are provided and collection is reasonably assured.
- (d) Local planning service member charges are recorded when services are provided and collection is reasonably assured.
- (e) Investment and other income are recorded on the accrual basis.

**Expenditure recognition**

Expenditures are recorded on the accrual basis. Outstanding commitments for goods and services relating to the current year are accrued at the balance sheet date.

**Solid waste landfill closure and post-closure liability**

The Commission follows the CPA Canada PSA 3270 standards to account for and report the liability for closure and post-closure care of a solid waste landfill site. Closure activities include final cover and vegetation, drainage control features, and facilities for leachate monitoring, water quality monitoring and monitoring / recovery of gas. Post-closure care activities include all activities related to monitoring the site once it can no longer accept waste including acquisition of additional land for buffer zones, treatment and monitoring of leachate, monitoring ground and surface water, gas monitoring and recovery, and on-going maintenance of control systems, drainage systems and final cover.

The liability is recognized as the landfill site's capacity is used. Usage is measured on a volumetric basis.

**Use of estimates**

The preparation of the consolidated financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amount of revenues and expenses during the reporting period. Significant estimates include allowance for doubtful accounts, useful life of tangible capital assets, future landfill closure/post-closure costs and the discount rate used to calculate the current year closure/post-closure liability. These estimates are reviewed periodically, and as adjustments become necessary, they are reported in earnings in the period in which they become known. Actual results may differ from those estimates.

**Southwest New Brunswick Service Commission**  
**Notes to the Consolidated Financial Statements**  
**December 31, 2020**

---

**2. Summary of significant accounting policies (continued)**

**Financial instruments**

The Commission follows the provisions of CPA Canada PS 3450 standards.

Measurement of financial instruments

The commission initially measures its financial assets and liabilities at fair value, except for certain non-arm's length transactions.

The commission subsequently measures all its financial assets and financial liabilities at amortized cost, except for investments in equity instruments, debt instruments and pooled investment funds that are quoted in an active market, which are measured at fair value. Changes in fair value of portfolio investments are recognized in remeasurement gains and losses.

Financial assets measured at amortized cost include cash, guaranteed investment certificates, trade receivables, accrued investment income, due from the federal government and its agencies and due from the Province of New Brunswick.

Financial liabilities measured at amortized cost include bank indebtedness, accounts payable and accrued liabilities, due from the Province of New Brunswick and deferred grants.

Impairment

Financial assets measured at cost are tested for impairment when there are indicators of impairment. The amount of the write-down is recognized in operations. The previously recognized impairment loss may be reversed to the extent of the improvement, directly or by adjusting the allowance account, provided it is no greater than the amount that would have been reported at the date of the reversal had the impairment not been recognized previously. The amount of the reversal is recognized in operations.

Transaction costs

The commission recognizes its transaction costs in operations in the period incurred. However, financial instruments that will not be subsequently measured at fair value are adjusted by the transaction costs that are directly attributable to their origination, issuance or assumption.

**Foreign currency translation**

The Commission follows the provisions of CPA Canada PS 2601 standards.

Each asset, liability and amount reported in the statement of operations arising from a foreign currency transaction is translated into Canadian dollars at the exchange rate in effect at the transaction date.

At each financial statement date, the following balances denominated in a foreign currency are remeasured to reflect the exchange rate in effect at that date.

- (a) Monetary assets and monetary liabilities
- (b) Non-monetary items included in the fair value category of financial instruments

Exchange gains or losses arising prior to settlement are recognized in the statement of remeasurement gains and losses. In the period of settlement, the cumulative amount of remeasurement gains and losses is reversed in the statement of remeasurement gains and losses and an exchange gain or loss measured in relation to the exchange rate at the date of initial recognition is recognized in the statement of operations.

**Southwest New Brunswick Service Commission**  
**Notes to the Consolidated Financial Statements**  
**December 31, 2020**

---

**2. Summary of significant accounting policies (continued)**

**Cash and cash equivalents**

Cash and cash equivalents include cash on hand, balances with banks, short term deposits with original maturities of three months or less and bank overdrafts.

**Tangible capital assets**

The Commission follows the provisions of CPA Canada PSA 3150 standards: Tangible Capital Assets. Tangible capital assets are recorded at cost which includes all amounts that are directly attributable to acquisition, construction, development or betterment of the asset. Donated or contributed tangible capital assets are recorded at their fair market value at the date of construction or contribution. Tangible capital assets below a threshold of \$ 10,000 are expensed in the year of acquisition. Amortization shall begin in July of the year in which the costs were incurred. No amortization is recorded in the year of disposal. Assets under construction are not amortized until the asset is available for productive use. The cost of the tangible capital asset is amortized on a straight line basis over the estimated useful life as follows:

| <b>Asset type</b>        | <b><u>Estimated useful life</u></b> |
|--------------------------|-------------------------------------|
| Buildings                | 40 years                            |
| Roads and utility supply | 20 years                            |
| Landfill site            | 25 years                            |
| Gas collection system    | 15 years                            |
| Containment cells        | 3 - 5 years                         |
| Vehicles                 | 6 years                             |
| Heavy equipment          | 6 - 15 years                        |
| Equipment                | 5 - 7 years                         |

**Contributed goods and services**

With the exception of tangible capital assets which are recognized at their fair market value, the value of contributed goods and services are not recognized in the financial statements.

**Inventory of supplies**

Inventory is valued at the lower of cost and net replacement cost with cost being determined on the average cost basis.

**Post-employment benefits and compensated absences**

The Commission does not have any employee future benefit plans or obligations.

---

**Southwest New Brunswick Service Commission**  
**Notes to the Consolidated Financial Statements**  
**December 31, 2020**

---

**2. Summary of significant accounting policies (continued)**

**Segmented information**

The Commission provides waste disposal, local planning and cooperative and regional planning services for the geographic area of Region 10. For management reporting purposes, the Commission's operations and activities are organized and reported by function. This presentation was created for the purpose of recording specific activities to attain certain objectives in accordance with special regulations, restrictions or limitations. Services are provided by departments as follows:

Solid waste services

This department provides solid waste disposal services to the Municipalities, Rural Communities and Local Service Districts. This includes the operation of various recycling programs, handling of hazardous waste and public education programs.

Local planning services

This department provides land use planning services to all local service districts and any municipality that does not currently have the service. This service includes the development of rural plans, the administration and enforcement of the plans, the issuance of building permits, conducting building inspections, and the approval of subdivisions, etc. The Commission encourages local service districts to develop common integrated plans, where possible and appropriate.

Cooperative and regional planning services

Regional Planning

The Regional Service Commission is responsible for the development of a Regional Plan, the aim of which would be to better coordinate and manage development and land use within the region. More specifically, the Regional Plan will focus on strategies that focus sustainable development practices, that encourage coordinated development between communities, that influence and guide the location of significant infrastructure (e.g., major roadways, facilities, trails), and that enhance coordination of commercial/industrial development. The Regional Plan will also serve as an important tool in better managing, protecting and harmonizing urban and rural landscapes and resources.

Regional Policing Collaboration

The Regional Service Commission will serve as a forum through which the effectiveness and efficiency of policing services is reviewed and evaluated on a regional basis. In addition, the Commission will identify issues of common concern within the region and provide direction on priorities for policing services. In addition, the Regional Service Commission will identify ways in which police forces within a region can work together to share costs, reduce duplication and generally build stronger linkages with one another.

Regional Emergency Measures Planning

The Regional Service Commission will serve as the vehicle through which Municipalities, Rural Communities and Local Service Districts will plan, coordinate and pool resources on a regional basis in order to enable more effective responses to emergency situations. This will involve working closely with the New Brunswick Emergency Measures Organization (NB EMO) to develop regional emergency protocols (specifying mutual assistance agreements between communities), providing assistance in developing and maintaining local emergency measures plans, and facilitating training initiatives for regional and inter-regional emergency responses.

Regional Sport, Recreational, and Cultural Infrastructure Planning and Cost-Sharing

The Regional Service Commission is responsible for facilitating the planning and cost-sharing of major sport, recreational and cultural facilities within the region.

The Commission is the entity through which Municipalities, Rural Communities and Local Service Districts come together to identify and reach consensus on the need, the scope and the financing required for such new facilities (could include the expansion/renovation of existing facilities). Such agreements could be developed by the Commission on a fully regional or on a sub-regional basis and would cover both initial capital and ongoing operational costs. In order to secure provincial funding, the project proponents will be required to obtain support from those communities expected to benefit from the facilities.

The commission is required to meet any provincial or other established standards associated with the services

|                                    | <u>\$ 2,064,250</u> | <u>\$ 2,265,280</u> | <u>\$ 1,975,402</u> | <u>\$ 2,169,371</u> |

Fair values have been determined based on quoted market rates provided by the investment management firm.

Guaranteed investment certificates issued by banks and trust companies bear interest at rates ranging from 1.75% to 3.09% with maturity dates ranging from 2021 to 2025.

**Southwest New Brunswick Service Commission**  
**Notes to the Consolidated Financial Statements**  
**December 31, 2020**

**8. Solid waste landfill closure and post-closure liability**

Paragraphs 19(12), 19(13) and 19(14) of Regulation 2012-109 for the Regional Service Delivery Act require the Commission to establish, manage and annually contribute to a special account that is designated by the commission for the payment of closure and post-closure expenses of the solid waste landfill site. The amounts required for these expenses and for the annual contribution shall be determined in accordance with the recommendations of the Public Sector Accounting Board respecting "solid waste landfill closure and post-closure liability" in the CICA public sector accounting handbook.

Closure activities include all activities related to closing the landfill site such as final cover/vegetation and completing facilities for drainage control, leachate monitoring, water quality monitoring and monitoring/recovery of gas.

Post-closure care activities include all activities related to monitoring the landfill site once it can no longer accept waste. These include acquisition of additional land for buffer zones, monitoring and treatment of leachate, monitoring ground water and surface water, monitoring and recovery of gas and ongoing maintenance of various control systems, drainage systems and final cover.

The liability is recognized as the landfill site's capacity is used. Usage is measured on a volumetric basis.

The design of future containment cells abutting the existing cells was approved which provides additional waste capacity from the v-area between the cells with waste stacking on existing cells, while maintaining minimum slope requirements. An engineering study was completed in 2019 and calculated 116 additional years of landfill life. For the purposes of calculating the closure and post-closure liability, the Commission has calculated 43 additional years of landfill life based on containment cell configuration and leachate treatment capacity. Future closure and post-closure cost estimates have been prepared based on existing site costs, closure cost reports for similar facilities, technical consultations and estimates by management. In addition, monitoring costs have been assumed to reduce slightly over time as better compliance history is available.

|                                                                      | 2020      | 2019      |
|----------------------------------------------------------------------|-----------|-----------|
| Key recognition and measurement assumptions are as follows:          |           |           |
| Expected final year of operation                                     | 2062      | 2062      |
| Expected future metric tonnes landfilled annually                    | 64,000    | 64,000    |
| Expected future compaction ratio (metric tonnes per cubic meter)     | 0.75      | 0.75      |
| Expected future annual capacity used (cubic meters)                  | 85,333    | 85,333    |
| Total estimated capacity (cubic meters)                              | 5,231,170 | 5,242,784 |
| Estimated cumulative capacity utilized to end of year (cubic meters) | 1,656,557 | 1,573,451 |
| Estimated capacity remaining at end of year (cubic meters)           | 3,574,613 | 3,669,333 |
| Estimated years of closure and post-closure care                     | 40        | 40        |
| Inflation rate                                                       | 2.0%      | 2.0%      |
| Discount rate for future cash flows                                  | 4.5%      | 4.5%      |
|                                                                      | 2020      | 2019      |

The solid waste landfill closure and post-closure liability has been calculated as follows:

|                                                                                        |    |           |    |           |
|----------------------------------------------------------------------------------------|----|-----------|----|-----------|
| Total discounted future cash flows associated with closure and post-closure activities | \$ | 4,414,315 | \$ | 4,188,370 |
| Multiplied by cumulative capacity used (cubic meters)                                  |    | 1,656,557 |    | 1,573,451 |
| Divided by total estimated capacity (cubic meters)                                     |    | 5,231,170 |    | 5,242,784 |
| Liability for closure and post-closure care at end of the year                         |    | 1,397,883 |    | 1,257,003 |
| Less; expenditures recognized at end of the previous year                              |    | 1,257,003 |    | 2,093,000 |
| Increase (decrease) to recognized liability                                            | \$ | 140,880   | \$ | (835,997) |

---

**Southwest New Brunswick Service Commission**  
**Notes to the Consolidated Financial Statements**  
**December 31, 2020**

---

**9. Measurement uncertainty**

The Commission estimated the future costs of closing the landfill site and monitoring the site for a period of thirty years after closing based on assumptions about future events. The landfill closure and post-closure liability recorded in the financial statements will require adjustment if the following significant assumptions change:

- (1) A costing study determines that future annual closure and post-closure cost estimates differ from current
- (2) The estimated 2% rate of inflation or 4.5% discount rate differs.
- (3) The total capacity of the landfill has been determined based on 41.9 years of remaining landfill life and average annual volume of 85,333 cubic meters. Due to the large potential landfill area available for cell construction, the site has the potential for higher total capacity should annual volume increase significantly or the operating period be extended. Due to reduced regional population and rising environmental awareness, there is a risk of reduced waste volumes affecting future operations.
- (4) The final year of operation is estimated to be 2062 with closure and post-closure activities occurring from 2063 until 2102. The landfill site has the potential to operate for a significantly longer time period.

**10. Contingencies**

In the normal course of operations, the Commission becomes involved in various claims and legal proceedings. While the final outcome with respect to claims and legal proceedings pending at December 31, 2020 cannot be predicted with certainty, it is the opinion of management that resolution of these matters will not have a material adverse effect as the Commission maintains insurance coverage in amounts considered appropriate.

**11. Short-term borrowings compliance**

**Interim capital borrowing**

The Commission has outstanding authority under ministerial approval number 18-0035 (June 11, 2018) totalling \$ 2,000,000 (interim financing) for Environmental Health Services (General) for a term not to exceed three years.

**Operating borrowing**

As prescribed in the Regional Service Delivery Act Regulation 2012-109, borrowing for operating expenses is limited to 5% of the Commission's operating budget for that service and borrowing for operating expenses of a solid waste management service is limited to 25% of the operating budget for that service.

In 2020, the Commission has complied with these restrictions.

**Inter-fund borrowing**

The Municipal Financial Reporting Manual requires that short-term inter-fund borrowings be repaid in the next year unless the borrowing is for a capital project. Interfund borrowing is in compliance with the requirements.

**13. Financial instruments**

The Commission is exposed to various risks through its financial instruments and has a comprehensive risk management framework to monitor, evaluate and manage these risks. The following analysis provides information about risk exposure and concentration of risks at December 31, 2020

Credit risk

Credit risk arises from the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge its obligations. The Commission is exposed to credit risk from customers. In order to reduce its risk, the Commission reviews new customers' credit history before extending credit, conducts regular reviews of its existing customers' credit performance and reviews overdue invoices with customers. The Canadian government sector accounted for 100% of member charge revenue and 100% of solid waste tipping fees from other regional service commissions.

Tipping fee revenue from domestic sources

|                                                                    | 2020              | 2019                |

**Southwest New Brunswick Service Commission**  
**Notes to the Consolidated Financial Statements**  
**December 31, 2020**

---

**13. Financial instruments (continued)**

Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and other price risk. The Commission has portfolio investments, held as equity instruments, debt instruments and pooled investment funds representing both domestic and foreign sources. These investments are held to fund the closure and post-closure liability over a 40 year period beginning in 2063 and are subject to fluctuations in stock market prices whether caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market.

Portfolio allocation by geography is as follows:

|                             | 2020           | 2019           |
|-----------------------------|----------------|----------------|
| Fixed income - Canada       | 44.56%         | 42.30%         |
| Fixed income - USA & Global | 2.77%          | 3.08%          |
| Equity - Canada             | 33.70%         | 34.61%         |
| Equity - USA                | 16.65%         | 17.82%         |
| Equity - Global             | 2.31%          | 2.19%          |
|                             | <u>100.00%</u> | <u>100.00%</u> |

The Commission has a formally documented investment policy which is reviewed annually. The fund manager must maintain reasonable sector and securities diversification within the investment portfolio upper and lower limits. The asset classes at yearend are as follows:

|                                                 | 2020          | 2019          |

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market interest rates. Cash balances earn interest at floating interest rates and guaranteed investment certificates earn interest at fixed rates ranging from 1.75% to 3.09% with maturities from 2021 to 2025. Additionally, specific equities values are sensitive to interest rate fluctuations. Due to the maturity date laddering and short investment term, management believes that interest rate risk is low.

**13. Financial instruments (continued)**Currency risk

Currency risk arises from the risk that the fair value of future cash flows of a financial instrument will fluctuate due to changes in foreign exchange rates. The Commission denominates credit sales to customers from the United States in U.S. dollars and has portfolio investments which have foreign investment content. At yearend, accounts receivable from foreign customers totalled \$ 145,749 U.S. (2019-\$ 139,767 U.S.), portfolio investments denominated in U.S dollars totalled \$ 43,002 U.S. (2019-\$ 41,565 U.S.) and cash balances totalled \$ 5,964 U.S.(2019-\$ 2,076 U.S.)

The commission is exposed to currency risk from Canadian supplier purchases of goods sourced directly or indirectly from foreign manufacturers. Annualized purchases of foreign manufactured products (mainly heavy equipment) range from \$ 300,000 to \$ 600,000.

The commission does not hedge its foreign currency risk but the cash inflows from foreign sales are partially offset by the cash outflows for goods manufactured outside Canada.

Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty meeting its obligations associated with financial liabilities. The Commission has significant working capital held in accounts receivable from customers but management believes that cash flow will be sufficient to settle financial liabilities as required. If liquidity difficulties arise, the Commission has the ability to borrow for operating and capital purposes.

**14 Employee future benefits**

The Commission provides sick leave time up to 15 days per year for full-time employees. An employee can take a leave with pay for an amount of time equal to the accumulated sick leave. Accumulated sick leave benefit does not vest and it does not carryover to the next year. Accordingly, there is no liability at year end.

The Commission contributes monthly to an employee RRSP benefit plan. The Commission matches employee contributions to a specified percentage of earnings. The benefit payments are recognized as an expense in the financial statements and there is no liability at year end.

**15 Comparative figures**

Certain of the 2020 comparative amounts have been reclassified to conform with the financial statement presentation adopted for the current year
