Other:

We were able to take part in 3 Christmas parades for the first time this year. I would like to thank the volunteers for braving the cold and putting their hearts into it. We gave out thousands of our branded shopping bags which people really seemed to appreciate.

Thank you everybody for attending the strategic planning session, I believe we accomplished much and had great discussions.

I attended a meeting with various people from Tourism, Heritage & Culture, along with our Director of Tourism Promotion. The topic at hand was the new recreation funding and initiative from the department. I have a tight deadline to apply for the funding, so I will get that in for approval before we make too many more decisions. The department would like to have a meeting in our region in the near future (February) about the initiative with the Board, along with CAOs and councilors that wish to attend.
