Thank you for taking my call this morning.

I am reaching out about the Southwest New Brunswick Service Commission's representation on the Saint John Airport Inc. Board.

The Commission's current representative is Bryana Ganong. The Executive of the Airport Board of Directors agree Ms. Ganong has been a valuable and contributing member of the Board, participating on Committees and contributing to the fiduciary conversations appropriately.

Bryana's first term expires in October this year and we encourage the Commission's nominating her to a second three year term effective immediately, or as soon as the Commission is able to respond to this request. Conversations with Ms. Ganong indicate her willingness to continue to serve.

Having said that, the SWNBSC has a right to change representatives if desired. If this is the case, there is a series of steps that I will be happy to review with you at your convenience.

I understand you have a Service Commission Board meeting later this month, and another again in late November. Hopefully, this matter can be resolved at either of these meetings so the matter can be resolved by the end of the year.

Please reach out to me directly if you have any questions. We look forward to hearing from you.
